

Community Association Homebuyers

According to the 2020 Homeowner Satisfaction Survey, community associations remain popular with American homeowners. The survey by The Foundation for Community Association Research was commissioned by Zogby International to poll people living in community associations, asking about their experience. The exclusive research provides essential information on community associations and U.S. homebuyers.

When you were considering the purchase or rental of your current home, were you told that it was in a community association?

Did the fact that your current home is in a community association make you more interested or less interested about purchasing or renting your home, or did it have no impact?

*Nationwide results
